

## **April 2008 Report from Cambridgeshire Region**

Well didn't February turn out nice! We've had fab weather and fingers crossed the sun shines for the rest of the year, but being British I very much doubt it!

Our C.R.A.P. event on 2<sup>nd</sup> Feb certainly managed to turn a few heads in the hotel. I heard other guests mentioning that our evening was akin to a scene from a James Bond film, the sumptuous dresses, DJ's and clean shaven men could have easily graced any Hollywood film set! 15 cars made the journey across country, and with the good weather I'm pleased to say that 13 of these were TVRs!. The day started with a superb luncheon just outside Warwick, then after checking into the hotel it was each to their own with the spa and bar facilities being used to the full. Following the 3 course meal, several people took advantage of the adjoining skittle alley, whilst a small faction managed to gate crash the Tom Jones tribute night. This is yet another event that will be repeated on an annual basis and I'm on the lookout for new venues so if you've got any suggestions let me know.

We had a good turn out at the monthly meeting, and would like to welcome potential new TVR owners Peter & Anna to the region – we hope to see them at many more events. A few of us also managed earlier in the morning to pop over and see Grumpy & our neighbours, Herts & Beds, and a big congrats to them on a record turn out for their meet!

The next trip saw 8 TVR's and 2 nonTVRs, heading up country to have tea and cake on the beach at Holkham and not only are our chaps good at driving they can also bake! It was a very close thing between Paul's flapjacks and Mark's chocolate cake.....but you as know Chocolate wins everytime! There's nothing like an invigorating walk along beach watching the rhythmic movements of the sea to unwind you, and put life's little dilemmas into perspective.

It's been an absolutely wonderful month, with so many of our regions TVR's out and about on the road, ranging from the new modern classics to the old timers, such as Pete & Patsy Tuscan V8 - who ever said TVR's are fair weather cars should be shot!

Take care till next time,  
Zoe.
