

March Report from Cambs TVR Region

Well were do I start....we have had 3 great events since my last report.

First of all was the weekend away to Hampshire and what a fab weekend. Thanks go out to the whole Hampshire region for making us all so welcome and particular thanks go to Andy, Cathy & Annette for their hard work to make the weekend something special. I hope that we will be able to return their hospitality at some point during 2009.

On the same night we also had our own local Christmas “do” at Elsworth, and from the reports I received a good night was had by all.

Next in diary was the post Christmas Blues run which saw 13 cars turning out to blow away the cobwebs. After the unscheduled stop at Woburn for the oldest member of the group (don't worry Paul they won't know I mean you!) we made swift progress over to Shabbington, just outside Thame for lunch.

We had a good turn out for the first meeting of 2009 and it was good to see that despite the economic gloom and doom some people are still out there buying their dream cars..... so I'd like to welcome Giles and his new Chimera to the region. I hope that he enjoys his new purchase and we look forward to seeing him and his good lady wife real soon.

I know I've been quite for the past couple of months but that's because we've been busy in the background coordinating events for the Cambs 2009 calendar and the first offering of the year's events have been published on the regions website www.cambs-tvrcc.co.uk . If you missed any of the meetings you need to check it out so you don't overlook any of the fab events we've got lined up so far.

We are still looking for more ideas for new or different events to try out so if you've got an idea let me know and if feasible we can add it to the calendar – during my research I even found a place where you can do paint balling using TANKS ; so who fancies a game?

Next month (April) we change over to the 3rd Thursday evening so unless you've purchased one for the limited edition Cambs regional calendars ; you'll have to make sure you make a note if this in your diary.

Take care till next time,
Zoe.
