

May Report from Cambs TVR Region

Well Spring is well and truly here now and we had a fantastic turn out for the last Sunday met in March, and I like to welcome new comers to the regional meets Chris & Evelyn with their black Chimera, Nick & Jeanny in their Blue Chimera and Kelly in her new Black Tuscan – we hope to see you all again next month.

I know that it is most women's worst nightmare to turn up to an event, and be wearing the same dress as someone else, well I didn't realise that it is also now a nightmare for some men as well! I know we all have got similar / good taste when it comes to cars but this is just taking the Michael....

The new hinge & bracket ?

As I said in last month report we have now out grown the car park at Conington so for our Summer meets (April to October) we are changing venue to Buckden Marina – full details are on the website and regional forum on the club site. We are confident this is going to be positive move with a much better back drop for the cars and ease of access for the whole region.

Forthcoming events on the May radar are :-

15->18 May Shropshire weekend away

At the time of writing we have 4 places left so if you'd like to come join us and become an honorary Cambs member for the weekend please contact me by return.

21 May – Monthly Meet

Take care till next time,
Zoe.
