

July was a busy month with 2 events on the calendar for the region, firstly the Kimbolton Classic Car Show, and with true British weather we saw some spectacular lighting and rain. A big thanks goes to Nicky for providing the shelter and some really tasty grub. We had such a good turn out this year I'll be negotiating a larger area for next years event.

Next saw us attending Classic Silverstone, which is an awesome event in itself as the variety of cars on static display is enormous and you also get to see some fantastic cars being thrashed around the circuit. We camped this year at Whittlebury and whilst the walk to the circuit was considerably more than the 10 minutes advertised it was good to be able to stay to watch the evening racing and the free Santana, Pussy Cat Dolls, Blue and Top Loader Concerts.

The July meet was well attended and welcome to new members to the region, Sheldon in his Copper Green Chim, Philip in his White Cerbera and Andy & Karen in their Starmist Grey Cerbera – we had 5 Cerbera's at the meet which I think was a first.

For August we headed over to Castle Coombe to watch the TVR Tuscan Challenge, the camping was great fun although the facilities were basic to say the least, no showers, no hot water, no sink plugs and no electricity. This didn't however deter us from enjoying the racing, well until the last 30 minutes when we witnessed what I can only say was the most horrific sight I've seen. A massive fire ball when several cars spun off on fluids at Folly corner. Luckily all drivers involved were OK, and hopefully will all be back racing as soon as the cars are repaired.

The August meet was the busiest we've seen at the Marina, with even more new members ; Peter in his Black Tuscan S, Gary in his Rosso Pearl Chim, Stuart in his Chanti Starmist Cerbera and Steve & Liz in their Blue Cerbera . Is it me or are the Cerberas breeding ?

We've also just got in from the Knebworth show where despite the autumnal start to the day I managed to get sunburnt!. A fantastic turn out of 30 plus cars put on a great display and made it worth the entrance fee but that's another story.....
